

LFP CATHODE MATERIAL

Market Research Report

Author: Brendan Jephcott

Date: August 2024

Table of Contents

Executive Summary	2
1.0 Introduction.....	15
1.1 LFP Cathode Material Industry Development Trends.....	15
1.2 Lithium-Ion Battery Technology.....	18
1.3 Mainstream Cathode Materials	24
1.4 Cathode Positioning within the Industry Chain	26
2.0 Lithium Iron Phosphate Cathode Material.....	27
2.1 Structure of Phospho-Olivines	27
2.2 LFP Working Principal.....	27
2.3 LFP Product Performance.....	28
2.3.1 Advantages.....	28
2.3.2 Disadvantages	30
3.0 Lithium Iron Phosphate Cathode Material Processing Methods.....	31
3.1 Principal LFP Production Processes.....	31
3.1.1 Solid Phase Synthesis.....	33
3.1.2 Liquid Phase Synthesis.....	38
3.2 LFP Product Modification Methods	41
3.2.1 Nanoization.....	41
3.2.2 Carbon Coating	42
3.2.3 Doping.....	43
3.3 LFP Upstream Raw Materials.....	44
3.3.1 Lithium Carbonate	44
3.3.2 Ferrous Oxalate	48
3.3.3 Ferric Phosphate	49
3.3.4 Iron Powder	53
3.3.5 Iron Oxide	53
3.3.6 Ferric Nitrate.....	54
3.3.6 Phosphoric Acid.....	55
3.3.7 Monoammonium Phosphate.....	58
3.4 LFP Final Product Specifications.....	59
4.0 Chinese Lithium Iron Phosphate Standards	67
4.1 Lithium Iron Phosphate	67
4.1.1 GB/T 30835-2014 Carbon composite lithium iron phosphate cathode material for lithium-ion batteries	67
4.1.2 YS/T 1027-2015 Lithium iron phosphate.....	68
4.1.3 GB/T 33822-2017 Nano composite lithium iron phosphate	69
4.2 Lithium Iron Phosphate Upstream Raw Materials.....	71
4.2.1 GB/T 11075-2013 Lithium carbonate.....	71

4.2.2	YS/T 582-2013 Battery grade lithium carbonate.....	71
4.2.3	YS/T 546-2021 High purity lithium carbonate.....	72
4.2.4	YS/T 1552-2022 Crude lithium carbonate.....	73
4.2.5	GB/T 23853-2022 Lithium carbonate made of brine.....	74
4.2.6	HG/T 4701-2021 Iron phosphate for battery minerals.....	75
4.2.7	GB/T 2091-2008 Phosphoric acid for industry use.....	75
4.2.8	HG/T 4069-2022 Wet purified phosphoric acid for industry use.....	76
4.2.9	HG/T 5742-2020 Ammonium dihydrogen phosphate for battery materials.....	77
5.0	Commercialisation.....	78
5.1	LFP Intellectual Property Rights.....	78
5.2	New Energy Vehicles.....	78
5.3	Energy Storage Systems.....	87
6.0	Competitive Landscape.....	97
6.1	China LFP Cathode Material Production.....	97
6.2	Overseas LFP Cathode Material Production and Proposed Projects.....	101
6.2.1	Asia (excl China).....	101
6.2.2	North America.....	106
6.2.3	Europe.....	110
6.2.4	Africa.....	115
7.0	Market Pricing.....	115
7.1	LFP Cathode Material.....	115
8.0	Market Size Forecast.....	119
	References.....	122
	Appendix I: Hunan Yuneng New Energy Battery Material Co., Ltd.....	129
1.0	Hunan Yuneng New Energy Battery Material Co., Ltd.....	130
1.1	Corporate Overview.....	130
1.2	LFP Cathode Material Business.....	130
1.3	Financials (1USD: 7CNY).....	142
1.4	Competitor Analysis (1USD: 7CNY).....	147
	Disclaimer.....	150
